Stephanie and Elizabeth**

I had been given empty promises time and time again about becoming pain free from migraine headaches. It was not until I made an appointment at Arkansas Dental Health and TMJ Therapy center that I began to see results for my debilitating migraines. I have received temporary relief but never any lasting results like Dr. Beaver's treatment plan has provided. I am now free from using narcotic painkillers, which had become a concern to me. I had to spend three days at a time, every week, in debilitating pain. Thanks to Arkansas Dental Health and TMJ Therapy Center I have now been migraine and pain free for two years.

My daughters, Stephanie and Elizabeth, are in orthodontic treatment at the center. Dr. Beaver's conservative tooth sparing approach paired with bite correction has helped the girls become headache free. What a difference TMJ therapy has made for us as a family!
